

# WCS Platform — App Store Review Reply

Resolution Center response · Submission ID bfa381c2-5902-4590-a217-e8d85a1fed22  
Resubmission build 1.0 (10) · Prepared May 30, 2026

Hello App Review Team,

Thank you for your review on May 29, 2026. We submitted updated build **1.0 (10)** to resolve **Guideline 3.1.1 – In-App Purchase** and retain iPad launch stability fixes from our prior response.

## Guideline 3.1.1 – In-App Purchase

**Issue reported:** Premium digital content was accessible without In-App Purchase.

**Resolution in build 1.0 (10):**

- **Individual Pro** (Premium course access) is purchased exclusively with **Apple In-App Purchase** using StoreKit 2 (*SubscriptionStoreView*).
- **Restore purchases** is on the same screen: Profile → Membership & subscriptions → Subscribe with Apple.
- Premium unlock uses StoreKit entitlements (*Transaction.currentEntitlements*) and shows as **Premium: Active** on Profile after purchase or restore.
- Consumer-facing hosted Stripe membership checkout was **removed from Release builds**. External links remain only for organization/investor B2B procurement and are labeled as not replacing Individual Pro IAP.
- Developer/mock premium toggles are **Debug-only** and are not in App Store Release builds.

## How to validate (reviewer path)

- Open the **Profile** tab.
- Tap **Membership & subscriptions**.
- Under **Subscribe with Apple**, subscribe to **Individual Pro** (product ID: `wcs.individual.pro.monthly`) or tap **Restore purchases**.
- Return to **Programs**, open a subscription-gated course, and confirm full lesson access when Premium is active.

## Guideline 2.1(a) – Launch stability

We retained launch-path hardening for iPad-class devices (including iPad Air 11-inch M3) and validated on iPhone hardware and simulator CI.

## Business model (Guideline 2.1(b))

- **Individual learners:** Apple In-App Purchase only for Premium digital content.
- **Organizations:** B2B seat/contract access outside the consumer app; does not bypass Individual Pro IAP.

Product ID: `wcs.individual.pro.monthly` · Bundle ID: `wcs.WCS-Platform` · Team ID: `TM2WG7HH96`

Please contact us if you need a sandbox tester account or additional metadata. Thank you.

*Distribution form summary: Individual Premium = IAP only; enterprise/investor = B2B external; no consumer digital unlock outside IAP.*
